How this report was compiled

Every record in this report is compiled by hand from reports published by named rights monitors, news outlets and official bodies, and links to the source it draws on. Each record is dated to the incident where its source gives that date, and otherwise to the date the source was published. The figures show what has been recorded, not the full extent of what has happened: incidents that were never reported do not appear, and a state with few records is not necessarily a state where little took place.
